

GVD-44X36

| Gel Drying

☰ Details Info

GVD-44X36 Vacuum Drier is designed for all kinds of electrophoresis gel drying .in order to prevent gel cracking .

the gel drier is used to process it during daily experiments

Specification:

| | |
|-------------------|----------------|
| Drying size (WXL) | 440X360 mm |
| Drying control | 0-80°C |
| Timing range | 20-40 min |
| Volume (LXWXH) | 550X450X165 mm |
| Weight | 23.0 kg |
